

Sharing in a ratio

Facts

You can share an amount in a ratio by dividing the amount by the total number of parts to find the value of 1 part.

Share £350 in the ratio 3:7. **£105:£245**

$$3 + 7 = 10 \text{ parts}$$

$$1 \text{ part} = 350 \div 10 = 35$$

$$3 \text{ parts} = \text{£}105 \quad 7 \text{ parts} = \text{£}245$$
